Thrombocytoponia with chronic liver disease in patients scheduled to undergo a procedure (Pontalet Mulpleta)

Thrombocytopenia with chronic liver disease in patients scheduled to t	undergo a procedure (Doptelet, Mulpieta)
Documentation of the following: 1. Pre-treatment platelet count; and 2. Schedule completion prior to scheduled procedure; and 4. Platelet count will be obtained by	
Platelet count:Lab Date:	
Date of scheduled procedure:	
Date for start of drug treatment:	
After the last dose, a platelet count will be obtained prior to undergoing the process	edure: Yes No
OtherDiagnosis:	
Reason for use of Non-Preferred drug requiring prior approval:	
Other medical conditions to consider:	
Attach lab results and other documentation as necessary.	
Prescriber signature (Must match prescriber listed above.)	Date of submission
	I and the second

IMPORTANT NOTE: In evaluating requests for prior authorization the consultant will consider the treatment from the standpoint of medical necessity only. If approval of this request is granted, this does not indicate that the member continues to be eligible for Medicaid. It is the responsibility of the provider who initiates the request for prior authorization to establish by inspection of the member's Medicaid eligibility card and, if necessary by contact with the county Department of Health and Human Services, that the member continues to be eligible for Medicaid.
